

PADI Open Water Diver Course 2018

The earth is approximately 30% land. Care to find out what happens in the other 70%?

The Submersibles is here to help you take that first giant stride underwater to discover the aquatic environment through PADI Open Water Diver course: the world's most popular and widely recognized scuba course.

You will learn dive theory and practical skills such as buoyancy control, basic (and rarely needed) emergency procedures and general diving skills. Upon the course completion, you will not only be a qualified and competent diver, but also a diver who knows how to have **fun under pressure** (The Submersibles' tagline!).

Pre-requisite:

1. Minimum age of 15 years old (or 10 years for Junior OWD). For youths aged 15 and below, the presence of one or both of their parents/guardians during the course is strongly recommended.
2. In reasonably good physical and mental health
3. Ability to swim **200m continuously** (without stopping) and **float 10min** on the surface of water without any aid/assistance.
4. Keen interest to have lots of fun ☺

Course Syllables:

- Dive Theory Online: Learn the basic of diving at your own pace through PADI E-learning. A total estimated time of 15 hours is required, including completing all quizzes and exam
- Pool Training: Now it is time to put the theory you have learnt to good use! The practical training in a swimming pool environment prepares you for the grand finale: the open water dives.
- Open Water Training: The real thing begins! Your skills from the pool training will be reinforced in open water that will eventually certify you as an Open Water Diver, the gateway to endless fun and exploration.

Price:

- **E-learning: AUD 202** (pay direct to PADI)

About Us

The Submersibles

Like any **REPUTABLE, RESPONSIBLE** and **AWARE** dive shop, The Submersibles conducts PADI scuba courses strictly in accordance to PADI standards, procedures and requirements. In fact, we aim a tad higher by giving students the extra attention (and hence safety) through small group teaching in the confine and open water, as well as in providing Dive Computer and SMB in the open water dives.

	PADI Standards	The Submersibles' Standards
Students : Instructor Ratio in Pool	10	4
Students : Instructor Ratio in Open Water Dives	8	4
Dive Computer during Open Water Dives	Optional	Compulsory

All we ask for is your commitment to the course schedule and the course, a keen interest in learning scuba diving, and most importantly a love for the environment. With those qualities, we guarantee you a fun and safe time diving, and being taught with knowledge, patience and enthusiasm.

As with all good quality products and services, we cannot compensate **QUALITY** by lowering our costs; be it the quality teaching by our instructors, or the quality of the time you spent underwater. One thing for sure, graduating from The Submersibles' PADI courses signified that you have earned your certification through our comprehensive education system and you will be recognised in Singapore, as well as among our numerous partners across Asia. You will be warmly welcomed wherever and whenever you dived with our partners as well.
